When the battery level is low, the power light will flash to remind you to recharge the product.

IMPORTANT NOTICE

- This product features a powerful patented motor. It may get warm during use, which is normal.
- The product has a built-in Li-ion battery. Please keep away from high temperatures. If taking it on a flight, please follow relevant safety regulations.
- Please keep out of reach of minors.
- Please ensure the product is disposed of in accordance with local waste policies.

Remote Control

Charging

This product is designed to be recharged only with the magnetic charging cable provided. Charging with any other cable may void your warranty. Please ensure the charging port is fully dry before charging. The light will blink while charging and stay on when fully charged.

GUARANTEE

The product includes a one year warranty. This warranty does not include product misuse, damage and other factors. Contact your retailer with any issues.

Cleaning

- The product is waterproof to IPX7 level, which means it can be washed in water or under a running tap. It is not designed for extended use in water. Please do not submerge it in water for long periods.

- Clean the toy after each use and make sure it is fully dry before storing.

For the best experience, use with lubricant.
